## Cryptocurrency Processing Fees

There are no charges on deposit and withdraw onto and from your account.

Note – For ERC20 tokens Gas fees will be deducted from your account. Network transaction fees applicable.

Please pay attention: Rectification of the cross-chain or unsupported token transactions caused by Client's actions (e.g., depositing BCH to a BTC address and vice versa) can be a subject to additional fees. Notice that we may not be able to recover every transaction of this kind. Please perform such operations with extreme caution.

## Trading Fees

Bityaris, charge trading fees, based on the account package mentioned above. Maker-taker pricing model is charging an access fee to the trade initiator (the taker) and drop fees for the liquidity supplier (the maker). The listed fees are only for the operations conducted on the Trade page.
